

KALAHARI

The resolute lines which serve as ridges for the low prominences rising from the surface of this wall covering **echo the sparse hills and rocks among the sand dunes** that make the Kalahari Desert more colorful.

This abstract looking wall leaves us with a strong and unwavering impression, but the play of light can turn it into something as **mysterious and surprising as the African plateau** of the same name with its termite mounds and other peculiarities.

Specifications:

Cross-laminated wooden panel.
Double-curvature surface.
Hardwood veneer with natural oil.
