

MONTANA

This state in the northern part of the US would not be so famous if it was not the home of the beautiful Yellowstone national park, the oldest of its kind in the world.

The **slightly irregular circles** symbolize the active **volcanoes, calderas, mountains, rivers and basins** found in this territory with a human history at least 11 thousand years old.

The Montana panels pay tribute to their exhaustible source of inspiration – **nature.**

Specifications:
